

Professional Summary

Transformational Architect with 15+ years of experience in designing innovative Transportation Centres, leveraging expertise in Architecture, Interior Architecture, and Infrastructure Planning to drive sustainable growth and operational excellence. Proven track record of leading high-performing teams and collaborating with cross-functional stakeholders to deliver projects on time, within budget, and exceeding client expectations.

Professional Experience

Senior Principal Architect - Transportation Centres (AR10)

Inazuma.co | January 2018 - Present

Associate Principal Architect

Nova Spire Architects | June 2015 - December 2017

Key Achievements:

- Successfully led the design team for the award-winning 'EcoCycle' transportation centre, recognized for its sustainable design and energy efficiency.
- Developed and implemented a company-wide sustainable design policy, resulting in a 30% reduction in carbon footprint across all projects.

Responsibilities:

- Managed a team of architects and designers on large-scale transportation projects.
- Collaborated with clients to understand project requirements and deliver tailored solutions.

Senior Architect

Urban Nexus Design Studio | March 2012 - May 2015

Key Achievements:

- Designed the 'SkyPlex' transportation hub, which increased passenger capacity by 25% while reducing operational costs by 15%.
- Introduced a new project management tool, enhancing team productivity by 20%.

Responsibilities:

- Designed and developed architectural plans for transportation projects.
- Coordinated with contractors to ensure project timelines and budgets were met.

Architect

GreenSpace Architects | September 2008 - February 2012

Key Achievements:

- Contributed to the design of the 'EcoPark' project, a pioneering green transportation centre that set new standards for sustainable design.
- Assisted in the development of the company's first sustainability report.

Responsibilities:

- Assisted in the design and development of architectural plans.
- Conducted site visits to monitor project progress.

Education

Master of Architecture (M.Arch)

University of California, Berkeley

Relevant Coursework:

- Sustainable Design
- Urban Planning
- Building Information Modelling (BIM)

Technical Skills

Design and Planning:

- Autodesk AutoCAD
- SketchUp
- Adobe Creative Suite

Project Management:

- Asana
- Microsoft Project
- Agile Methodologies

Sustainability and Energy Efficiency:

- LEED Certification
- EnergyPlus
- Green Building Codes
