

Professional Summary

Results-driven Engineering Professional with 15+ years of experience in Power Generation, Substation, and Transformer management. Proven track record of successfully leading operations and maintenance teams, ensuring seamless power delivery and equipment reliability. Currently, a Senior Site Manager at Inazuma.co, overseeing Gujarat area operations.

Professional Experience

Senior Site Manager - Gujarat Area In-Charge

Inazuma.co | Jan 2016 - Present

Site Manager - Gujarat Area In-Charge

POWERICA Ltd. | Jan 2016 - Dec 2020

Key Achievements:

- Improved O&M; efficiency by 25% through process optimization and team training.
- Successfully managed a team of 20 engineers and technicians, ensuring zero accidents and 99.9% uptime.

Responsibilities:

- Operational management of windmill and substation facilities.
- Budget planning and cost control for maintenance and upgrades.

Senior Engineer

Suzlon | 2007 - Dec 2015

Key Achievements:

- Developed and implemented a predictive maintenance program, reducing downtime by 30%.
- Collaborated with cross-functional teams to commission new wind farms, ensuring timely project delivery.

Responsibilities:

- Design, installation, and maintenance of wind turbines and substations.
- Troubleshooting and resolving technical issues on-site.

Engineer - O&M;

Enercon India Ltd. | 2005 - 2007

Key Achievements:

- Assisted in the development of a comprehensive maintenance schedule, improving overall plant efficiency.
- Provided on-site support for the installation of new wind turbines, ensuring smooth project execution.

Responsibilities:

- Routine maintenance and repair of wind turbines and electrical systems.
- Assisting in the training of new engineers and technicians.

Education

Bachelor of Engineering (Electrical)

Visvesvaraya National Institute of Technology (VNIT), Nagpur | 2005

Technical Skills

Power Generation:

- Wind Power
- Thermal Power
- Power Plant Operations

Substation:

- Substation Design
- Switchgear and Protection Systems
- Substation Maintenance

Transformer:

- Transformer Design and Testing
- Transformer Maintenance and Repair
- Transformer Protection Systems
