

Inazuma.co

Environmental Compliance Policy

1. Introduction

Inazuma.co recognizes its responsibility to protect the environment and comply with all applicable environmental laws, regulations, and standards. This Environmental Compliance Policy establishes a framework for ensuring that our operations are conducted in an environmentally responsible manner, minimizing our impact on the environment, and promoting sustainability. This policy applies to all Inazuma.co employees, contractors, partners, and stakeholders. We are committed to continual improvement in our environmental performance and the prevention of pollution.

2. Purpose and Objectives

The purpose of this Environmental Compliance Policy is to:

- Provide a framework for Inazuma.co's environmental compliance efforts.
- Ensure that all operations are conducted in accordance with applicable environmental laws and regulations.
- Minimize our environmental footprint and prevent pollution.
- Promote sustainable practices and

resource conservation.

- Establish clear roles and responsibilities for environmental compliance.
- Provide for regular monitoring, auditing, and reporting of environmental performance.
- Ensure that all employees receive adequate training and are aware of their environmental responsibilities.
- Establish procedures for responding to environmental incidents and emergencies.
- Commit to continual improvement of our environmental management system.

3. Scope

This policy applies to all of Inazuma.co's operations, activities, and facilities, including but not limited to:

- Office operations
- Manufacturing and production processes
- Research and development activities
- Product design and lifecycle management
- Supply chain management
- Transportation and logistics
- Waste management
- Emissions to air, water, and land
- Use of natural resources
- Construction and renovation projects

4. Legal and Regulatory

Requirements

Inazuma.co is committed to complying with all applicable environmental laws, regulations, and standards at the local, regional, and national levels. These include, but are not limited to, regulations related to:

- Air quality
- Water quality
- Waste management (hazardous and non-hazardous)
- Chemical storage and handling
- Emergency planning and community right-to-know
- Product safety and environmental labeling
- Resource conservation and recovery
- Endangered species and biodiversity
- Climate change and greenhouse gas emissions

5. Key Principles

Inazuma.co will adhere to the following principles in its environmental compliance efforts:

- **Compliance:** We will comply with all applicable environmental laws, regulations, and standards.
- **Prevention:** We will take proactive measures to prevent pollution and minimize our environmental impact.
- **Due Diligence:** We will exercise due diligence in all our activities to

identify and mitigate potential environmental risks.

- **Continual Improvement:** We are committed to continual improvement in our environmental performance and our environmental management system.
- **Resource Conservation:** We will conserve natural resources through efficient use, reduction of consumption, and the use of renewable resources where feasible.
- **Transparency:** We will be transparent in our environmental performance and communicate openly with stakeholders.
- **Responsibility:** All employees are responsible for adhering to this policy and contributing to our environmental compliance efforts.
- **Pollution Prevention:** We will implement practices to prevent or minimize the release of pollutants to air, water, and
