Professional Summary

Results-driven Engineering Leader with 12+ years of experience in driving innovation, leading high-performing teams, and delivering complex projects. Proven track record of leveraging technical expertise to drive business growth and improve operational efficiency.

Professional Experience

Senior Engineering Director (EN09)

Inazuma.co | January 2020 - Present

Engineering Manager (EN07)

NovaTech Inc. | June 2018 - December 2019

Key Achievements:

- Improved team velocity by 30% through process optimization and tooling improvements.
- Successfully led the launch of 3 major product features, resulting in a 25% increase in customer engagement.

Responsibilities:

- Managed a team of 20 engineers, providing technical guidance and mentorship.
- Collaborated with product management to define project roadmaps and priorities.

Senior Software Engineer (EN05)

Pulse Engineering | March 2015 - May 2018

Key Achievements:

- Developed and deployed a scalable cloud-based architecture, reducing latency by 40%.
- Received the 'Innovator of the Year' award for designing a novel solution to a complex technical problem.

Responsibilities:

- Designed and implemented multiple features for a flagship product.
- Participated in code reviews and contributed to the improvement of the engineering team's coding standards.

Software Engineer (EN03)

Spark Solutions | August 2012 - February 2015

Key Achievements:

- Successfully integrated a third-party API, enhancing product functionality by 20%.
- Collaborated with the QA team to identify and resolve critical bugs, improving product stability.

Responsibilities:

- Developed and tested software features for various projects.
- Assisted in the migration of legacy code to a newer framework.

Education

Master of Science in Computer Science
Stanford University

Relevant Coursework:

- Advanced Algorithms
- Computer Systems
- Software Engineering

Technical Skills

Programming Languages:

- Java
- Python
- C++

Development Frameworks:

- Spring
- Django
- React

Databases:

- MySQL
- PostgreSQL
- MongoDB

Cloud Platforms:

- AWS
- Azure
- Google Cloud

Agile Methodologies:

- Scrum
- Kanban

Version Control:

- Git
- SVN
